## About „Dance Xpanded“

"Dance Xpanded " is the ultimate set for Dance, Trance, Electronic, Chill and Pop. It was produced by Peter Krischker. The sound designer and DJ JahnsPierre Leyton ("DJ Maverick") was engaged as Co-programmer in a separately marked part of the Voices ("JL").

„Dance Xpanded“ for MOTIF-RACK ES includes:

- 128 new Voices
- 128 Voices „MOTIF ES Best Synth“ (incl. MOTIF-RACK ES Synth Voices)
- 64 MB new Synth Waveforms
- 20 Performances
- Pattern, Phrases, Sliced Drumloops
- 100 MIDI-Loops / Arpeggios
- 64 Audio-Drumloops

For loading samples **Installation of optional DIMMs** (2 x 64 MB or more) is needed. But you can load alternate version without samples, if you have not DIMMs installed.

Main focus of 128 Voices are Atmospheres, Pads, Synthvox, Synthleads, Synthbasses, Chordsynths, Gated Pads and Sequencer/Arpeggio sounds.

### Special Features:

- Top-Analog Sound by professional programming and using new synthwaves
- „SawPhase“-Oscillators: 4 Sawtooth-Wave multisamples using different start-phases for getting analog attacks.
- Trance Gate Pads generated with User LFO
- Massive application of different filter types (LPF, HPF, BPF, BEF, Combi filter).
- Filter Control with modulation wheel or foot control

### MIDI Loops

100 MIDI loops beside 128 new User-Voices are offered as Standard MIDI files. These arpeggios, sequences and chordgrooves are descended from the CD-ROM "Mega Arpeggio" and are suited very well for controlling the sounds of „Dance Xpanded“.

### Drumloops

For building small arrangements or sound combinations 64 well-chosen Drumloops (WAV-format) from the EASY SOUNDS CD-ROM "Mega Loopz" were added to this set. They can be loaded with an external Audio-Sequencer. Drumloops are also part of Motif ES All-File „Dance\_ES“ (see next page).

## Loading Motif ES files from Smart Media Card

In folder „Card Files“ you find following MOTIF ES ALL-Files:

DANCE\_ES.W7A  
DANCE\_ES.W8A  
DANCE\_MO.W7A  
DANCE\_MO.W8A  
DANCE\_MR.W7A  
DANCE\_MR.W8A

If you received set with download or CD-ROM you have to copy this files to Smart Media Card (size at least 64 MB) before loading to MOTIF ES. If you have connected USB CD-ROM drive to MOTIF ES you can load files directly from CD-ROM.

With loading above listed files all user data of Motif ES will be overwritten (User Voices, Performances, Master, User Arpeggios, Songs, Pattern, Waveforms, Utility-Settings). Please save your data before loading files.

You can recall Factory Voices with Factory Set (UTILITY JOB).

You can load single voices using **File-Type „Voice“**.

Here you find a short description of above listed files:

### **DANCE\_ES**

This is the „Full Version“ of the set. Here you find new User Voices, Performances, Pattern, Samples and User Arpeggios.

Installation of optional DIMMs (2 x 64 MB or more) is needed.

### **DANCE\_MO**

This version includes new Voices and User Arpeggios.

DIMMs are not needed.

### **DANCE\_MR**

This version includes new Voices, but without User Arpeggios.

It is compatible with MOTIF-RACK ES version.

DIMMs are not needed.

Arpeggiator is switched off.

This set is very useful for external controlling with MIDI-Loops.

You can transmit this set also using **MOTIF ES Voice Editor**.

Please load file „DANCE\_MR“ from folder „Voice Editor“.

New Voices will be loaded always to Voice Bank USER1.

Voice Bank USER2 includes a selection of very best MOTIF ES Synth Sounds including some new MOTIF-RACK ES voices.

## User Arpeggios

Files „DANCE\_ES“ and „DANCE\_MO“ include almost same set of total 100 User Arpeggios.

You can load User Arpeggios also separately with file „DANCEARP“ (folder „UserArps“) from Smart Media Card.

Please use File-Type „UserARP“ for loading.

User Arpeggios are listed in „Overview User-Arpeggios“.

## Loading MIDI-Loops

MIDI-Loops are basically same sequences as delivered 100 User Arpeggios.

You find the MIDI-Loops in folder „Dance Xpanded Loops / MIDI Loops SMF0“.

Loops can be loaded or imported as Standard MIDI Files with every sequencer.

MIDI loops are planned for controlling arpeggio sounds of the set.

Of course the allocation of MIDI loops to the voices is your choice. Nevertheless, in the following you receive some tips which voices fit best of all to the single groups of the MIDI loops.

### BasicArp

Voices 57 – 62, 81 - 90

### BassArp

Voices 37 – 46, 113 - 120

### ChordSeq

Voices 121 - 128

### ClassicArp

Voices 87 - 90

### ElectronicArp

Voices 57 - 64

### FifthArp

Voices 99 - 100

### HybridSeq

Voices 35, 36, 101 - 112

### MelodicArp

Voices 101 - 112

### SimpleOct

Voices 91 - 95

OctaveSeq  
Voices 96 - 98

Trance Arp  
Voices 81 - 86

Trance Demo Sequences  
Voices 9 – 11, 15 - 34

## Loading Drumloops

You find the drumloops in folder „Dance Xpanded Loops / Drums90bpm“ and „Dance Xpanded Loops / Drums126bpm“.

Loops can be loaded or imported as WAV-File with every external audio-sequenzer.

You can load drumloops using File-type „Waveform“ directly to MOTIF ES.

Set „DANCE\_ES“ includes all drumloops. They are combined in voices „127 LoopKit090“ and „128 LoopKit126“ as „Loop-Kits“.

Please see table in „Overview Drumloop-Kits“.

Drumloops are also available as audio-phrases in Pattern-Mode (Pattern 2 + 3).

## Pattern and Sliced Drumloops

Pattern 1 – 4 of „Dance Xpanded“ show combinations of drumloops and arpeggios.

Pattern „**Drums&Arps**“ combines several drumloops with complexe arpeggio-sound.

Pattern „**DrPhrse126**“ and „**DrPhrse090**“ include all drumloops of each tempo-group. Please press PATCH (F4) for selecting different phrases.

Pattern „**SliceDrums**“ needs a special explanation.

„Overview Drumloop-Kits“ shows, that some drumloops are available as sliced version.

You find related sequences as phrases in Pattern „SliceDrums“.

Sections A – H include different sliced drumloops or combinations, assigned to tracks 3 - 6. Tracks 1 + 2 are reserved for playing pad + arpeggio. Arpeggio-types can be changed with SF1 – SF5.
