Synth Universe – Vol. 1: „Magical Pads“

„Synth Universe“ offers an universe of synthesizer sounds.

Several volumes will include all important synth-categories time after time.

This first volume „Magical Pads“ provides mainly warm, analog and atmospheric synthpads, but also sweeps, swells, synthbrass, and Atmo/FX-sounds.

You will find countless synthpads in several Synth- and Sample-Libraries with all kind of variations, sometimes using more motion than you need.

But you have to search for a long time to find analog pads with such gentle, wide, fat and spacious character like the pads of this volume.

Main emphasis is musical usability, not spectacular effects.

In most cases pads can be controlled with modulation wheel from „bright“ to „dark“ or the other way round.

The character of the synthpads is influenced from vintage synths Jupiter-8, Oberheim Xpander or Polysix as well as virtual analogsynths like Nordlead or Virus.

The S90 ES Set „Magical Pads“ includes

- 128 new User-Voices
- 128 Voices „Best Motif Pads“ – a collection of best Factory Presets of MOTIF ES, MOTIF-RACK ES and MO6

Loading Voices

Voices can be loaded with USB-Device directly to the S90 ES or transmitted with S90 ES Voice Editor.

Voices will be loaded completely with file "PADS_MO" File (**File-Type „AllVoice“**) from USB-Device (Harddisk, USB-stick...).

Please copy files PADS_MO.W8V and PADS_MO.W7V from computer or CD-ROM to used USB-Device.

Then connect USB-Device with S90 ES and load set with FILE – LOAD – Type AllVoice.

When loading all User Voices will be overwritten. Please save your data before loading. You can recall Factory Voices with Factory Set (UTILITY JOB).

You can load single voices using File-Type „Voice“.

If you want to transmit voices with Voice Editor to S90 ES please load file „PADS_S90ES.W7E“ to Voice Editor.

Additional Audio Loops

On our website www.easysounds.de you find the demosong „Magical Groove“ for this product. It includes 9 Drum- und Synthloops extracted from EASY SOUNDS CD-ROMs „Quick Phrase“ and „Mega Arpeggio“.

This Loops are shipped with this product in WAV-Format (see folder „Magical Groove Loops 130BPM“). You can use them for your productions without paying additional licenses. If you want to combine pads, atmospheres and loops in the style of the demosong, you can use the loops for starting.

WAV-Loops of CD-ROMs „Quick Phrase“ and „Mega Arpeggio“ are basically also interesting for S90 ES user.

Combining S90 ES sounds with WAV-loops works fine, if you load WAV-loops into external sequencer (Logic, Cubase, Ableton Live,...). There you can arrange S90 ES sounds with MIDI-Tracks and WAV-loops with Audio-tracks.

You will find more informations and demos about the products of our „Content Software for MIDI-/Audio Sequenzer“ on www.easysounds.de (NEWS) and in PDF-Infos in folder „Magical Groove Loops 130BPM“.

Overview: WAV-Loops „Magical Groove“

| File-Name | CD-ROM |
|--------------|---------------|
| MegaArp1.wav | Mega Arpeggio |
| MegaArp2.wav | Mega Arpeggio |
| MegaArp3.wav | Mega Arpeggio |
| MegaArp4.wav | Mega Arpeggio |
| MegaArp5.wav | Mega Arpeggio |
| MegaArp6.wav | Mega Arpeggio |
| QPdrm_01.wav | Quick Phrase |
| QPdrm_02.wav | Quick Phrase |
| QPdrm_03.wav | Quick Phrase |
